Lighting Handbook - Illuminating Engineering Society

A primary role of our IES community is to develop Lighting Standards for the benefit of the public. Our volunteer technical committees of industry experts and interested parties work diligently to develop and maintain our Lighting Library, consisting of approximately 70 publications that have been vetted through our ANSI accredited Standards Development Organization (SDO) process.

About IES Standards - Illuminating Engineering Society

Explore careers in Engineering, Science and Math with the following links to job descriptions, which include information such as daily activities, skill requirements, salary and training required.

Engineering, Science and Math Career Guides and Web Resources

Lighting or illumination is the deliberate use of light to achieve a practical or aesthetic effect. Lighting includes the use of both artificial light sources like lamps and light fixtures, as well as natural illumination by capturing daylight. Daylighting (using windows, skylights, or light shelves) is sometimes used as the main source of light during daytime in buildings.
