EMN Manual push button STARTERS for IEC applications Applications: Used on drilling rigs for mud agitators and shakers where flammable or explosive gases are present

### **EMN Manual push button STARTERS for IEC applications**

IEC manual motor starters are electromechanical protection devices. They are typically used to switch motors manually on and off and to protect against circuit failures. This can help save costs, space and ensure a quick reaction to power issues. As a result, manual motor starters reduce downtime and maintenance expenditures by protecting motors.
