If you are going to compression test an outboard to decide on a purchase, make sure you take that boat out on open water to take it through a trial run. Check the condition of the lower unit oil as well. Also make sure that there's a healthy stream of water coming from the engine that would indicate the impeller is in decent shape.

How to do an Outboard Compression Test the Right Way ...

Turn Scrap Lumber into an Outboard Motor Stand. You don't want to store an outboard motor lying on a floor or workbench in your garage when it isn't on the boat, especially all winter. You want it to be easy to work on, to move around, and to load and unload either from your tow vehicle or the mount on your sailboat.

Turn Scrap Lumber into an Outboard Motor Stand - The ...

I am trying to plan an outboard bracket, I hope to build it out of 3/4 ply and glass..the outboard is a 50hp and weighs 260lbs..any ideas? can it be safely bolted to the transom? should it be glassed on the outside and bolted on the inside with aluminum angle stock? any ideas would be appreciated..thanks..Mick

building outboard bracket? | Boat Design Net

Re: Building an O/B motor stand - Instructional So, I did something similar a couple of years back, and here's my design suggestions if you ever want to do a rev 2.0. With those diagonal supports arranged like you have them, it's impossible to remove a tilt-pin, and just as hard to access the T&T manual release valve.

inexpensive way.....Make a sleeve out of pipe, and use it to add..I dunno say six feet of shaft to the motor. Get a piece of plywood with a hole in it (for the shaft) and mount the motor on it. Put a prop on the end of the shaft, fix the damned thing at an appropriate angle and mount the whole show into a rudder post.
