The power cables will be run to your New Wire Marine custom marine switch panel and your tinned marine negative bus bar. Most of our switch panels include waterproof resettable circuit breakers with all the connections pre-made to make them work, that's how it is shown here.

Beginners Guide With Diagrams - New Wire Marine

Re: Mercruiser 5.7TKS Engine wiring diagram Just hook the trim pump red wire directly to the battery or common terminal of a battery switch, and the negative to the engines ground terminal. Use a fuse the same size of your Volvo circuit breaker. Just an FYI, with Merc, years means nothing, it's all serial number.

OMC Inboard Electrical System - Go2marine

Re: mercruiser inboard ignition wiring If you look at the diagram you will see only 3 terminals being used. Question, does the switch in question have a push feature? If so it is an outboard switch which will not work. You can use an standard automotive switch, which may not last as many years due to materials it is made from. i.e. not brass.
