Hi, I have a 20" HP w2007w monitor, GeForce 7300 GS and I can't get Windows running at the monitor's native resolution (1680x1050). Maximum resolution available - 1600x1200. Anyone's having the same problem? I had a problem like this when I first installed Windows 8 (on hardware), but it went away after I restarted the machine.
