Hi guy's, I just purchased a 4020PS to add to my collection, it is a bit of a basket case. I'm trying to figure out the wiring, I looked all over for a schematic in our manuals section but can only find a parts break down. I'm sure it is just me overlooking the right section, but does anyone have a link to

the wiring schematic and possibly the service manual for a 4020PS. thanks
