Twenty-five or so years ago, Alain Prost won his fourth world championship – and promptly retired. The car in which he achieved this final success, and which took Damon Hill to his first Grand Prix victories in the same year, was the technologically remarkable Williams-Renault FW15C. This was the ultimate electronic aids car before most of the technology was banned for 1994 and beyond.

ECU - Electronic Control Unit - Formula 1 Dictionary

An engine control unit (ECU), also commonly called an engine control module (ECM), is a type of electronic control unit that controls a series of actuators on an internal combustion engine to ensure optimal engine performance. It does this by reading values from a multitude of sensors within the engine bay, interpreting the data using multidimensional performance maps (called lookup tables ...
