### How To Paint Harley Engine

The type of paint depends on the color. If you're doing any color other than black, I'd recommend powder coating. It stands up much better, and when processed correctly, it will not discolor from engine heat. If you want to paint it black, it's cheaper to go with Harley's Black Wrinkle engine paint. It's available through the P&A catalog.

### Paint my engine? : V-Twin Forum: Harley Davidson Forums

HD engines operate at 180 to 220 degrees... shut down at 250... powder coat goes on at 450 degrees, it is your best bet. Hi heat paints just don't have the bonding qualities or durability of powder. As far as heat goes, extensive tests have shown black powder coat dissipates heat BETTER than natural finish... about 4 degrees cooler under all conditions.
