The Allen project was designed as a companion to the Paradise work, following it by about a year. Dan Tibbs, TVA general manager for major projects, said, "The Allen project was intentionally co ...

### Coal-to-Gas Power Shift Driven by Economics

Human power is work or energy that is produced from the human body. It can also refer to the power (rate of work per time) of a human. Power comes primarily from muscles, but body heat is also used to do work like warming shelters, food, or other humans.. World records of power performance by humans are of interest to work planners and work-process engineers.
