### **Life is Awesome Civil Engineering Plans - YouTube**

Structural engineering is the analysis of home plans or a building's proposed structure [or even existing at times] to verify that the framing members and the method of construction is sufficient to withstand local weather patterns, soil types, earth movements, wind speeds, etc.

### **Engineering Plans for Houses - Questions and Answers**

Architecture in Civil Engineering. Civil engineers and architects complement each other's work. An architect takes care of the design and shape of a building whereas a civil engineer takes care of the technical nitty-gritty like the strength of the building. Architecture is art; civil engineering is more about physics.
