A query on the Icom reflector led me to the IC-781 technical info at the Icom America site. While I was aware of the possibility of heat damage to the regulator board of the IC-781, I was surprised to read that Icom was recommending that IC-781 service centers always check that area first when a unit comes in for service.

I have an ICOM 781 HF All Band Transceiver General Coverage Receiver with microphone that belongs to my mother, WA3HUP. She has retired from amateur radio after over 40 years and is wishing to sell her equipment. The 781 is missing Date/Time Battery. She would like to get \$2000 for it. I also have the original shipping box and owners manual.

A query on the Icom reflector led me to the 781 technical info at the Icom site. While I was aware of the possibility of heat damage to the regulator board of the 781, I was surprised to read that Icom was recommending that 781 service centers always check that area first when a unit comes in for service.

**page2**

Icom sold IC-781 into high-end amateur radio market for over \$5,000 USD ... purchased by some amateurs with financial means that could afford it. Personally, I would NOT recommend the IC-781 to radio amateurs with no technical skills/knowledge (appliance ops) OR those with limited financial means.

For sale is an Icom IC-781 transceiver with a copy of the Operator's Manual and the Service Manual. The photo of the s-meter shows 150 watt output on the 40m band. This radio was used in a garage in Hawaii, so some of the metal on the rig is pitted. Cosmetically it is a 5 to 6, but I have had no problems operating the rig.
