### How To Changing Engine Oil

To change the oil in your car, start by parking your car on a level surface and putting on the parking brake. Jack the car up, place the oil drain pan underneath the engine, then give your engine about 10 minutes to cool down. Once it's cool, remove the oil plug underneath your car and allow the oil to drain out into the pan.

### How to Change the Oil in Your Car (with Pictures)

Changing oil isn't brain surgery—you probably did it yourself years ago. But with oil change shops charging more and more, it's time to get back under the car and start saving big bucks. Plus, you won't be pressured into buying overpriced add-ons (like wiper blades and PCV valves) every time you go in for a oil change.
