Get a used 5hp 3 phase motor and replace the bearings. motor should cost 50-100 dollars. bearings should cost 40 dollars. or Switch to a 5hp single phase if you were thinking about it.

5 hp 230v motor rebuild or replace? - practicalmachinist.com

Carburetor Rebuild. Replace the gaskets between the carb and the engine, and the carb and the air cleaner. One common mistake made is to fail to replace the fuel line between the carb and the fuel filter/tank. If the carb was full of dirt or varnish the fuel line will also be. Plus when the carb or fuel line is removed,...

This Old Outboard - Johnson / Evinrude 9.5 Hp Carburetor ...

Step 1. Check the air-flow to the carburetor. Remove the air filter cover and the air filter cartridge. Look for dirt, debris and oil that may be clogging the air filter. Inspect the path from the filter into the carburetor for any blockages or dirt build up. Remove any foreign objects.

How to Clean & Repair Carburetors on Briggs & Stratton ...

Congratulations for rebuilding it rather than slapping a cheap China built motor on it. Those old original engines are easy to rebuild, and solid as a rock when finished. Leave the "chonda" motors

to those without the ability to actually fix something. Rebuild it and it will outlast several of the chinese motors.

Rebuilding a Snowblower Engine (Tecumseh 5hp) - Bob Is The ...

This rebuild does not fit all Briggs and Stratton engine horse power stated. I am sorry that Briggs made 100s of model numbers and I am sorry that different model numbers take different parts. I am sorry, I am sorry I am not allowed to hold orders.

Rebuild for some BRIGGS and STRATTON ENGINE 10, 11 ,12 ...

Re: Help beginner on my first rebuild! Be sure to get the correct size. The hone will fit in a hand drill and will have ball shaped stones at the ends of the wires. Use a fast up and down motion (like the piston travels) and a slow speed on the drill. Use WD40 as a lube. You're goal is to achieve a cross hatch pattern in the cylinder bore.
