### **Honda TPMS - Tire-pressure monitoring system**

Each TPMS sensor has a unique ID, but uses the same frequency. I've included a link to a video of the process of gathering the TPMS ID's for a Sonata, not much different for other Hyundai models (Hyundai uses both TRW and Lear TPMS systems on their other cars, but the Genesis might be completely different for all I know).

### **TPMS Question. | Genesis Forums**

The TRW tire pressure monitoring system comes in two parts, the sensor and receiver. Each battery-powered Remote Frequency sensor is installed in each wheel. Each sensor collects data on tire pressure and temperature and transmits this data to the receiver unit. The data is then interpreted and relayed to the driver.

### **How To Reset Low Tire Pressure Light (TPMS) Tire Monitoring System**

TPMS, or tire pressure monitoring systems, are a mildly controversial feature of some modern cars. While it's nice to have quick access to the current PSI readings of your tires from the comfort of your driver's seat, some manufacturers (hello, Honda!) have a history of TPMS problems that turn the system into more of a headache than just getting out of your car and checking the tire pressure ...

### **TPMS Warning Light - Honda Problems**

Tire Pressure Monitoring System (TPMS) Since an underinflated tire impedes handling and can be a safety hazard, the Tire Pressure Monitoring System uses pressure sensors mounted in each wheel that send readings to a central electronic control unit. The system then evaluates whether the pressure is up to an acceptable range.
